Recognition of Visual and Performing Arts Resource Teachers for Efforts Related to the Sri Chinmoy Oneness-Home Peace Run

___________Action
___________XInformation

BACKGROUND INFORMATION:

The Sri Chinmoy Oneness-Home Peace Run (Peace Run) is a global torch relay that embodies humanity’s universal aspiration for peace. Since its inception in 1987 the Peace Run has traversed over 150 nations and territories and touched the lives of millions of people. The Peace Run does not seek to raise money or highlight any political cause but simply strives to create goodwill, harmony, and friendship among peoples of all nations. Last March, a team of runners from the Sri Chinmoy Oneness-Home Peace Run spread its message to Enrique S. Camarena, Myrtle S. Finney, Anne and William Hedenkamp, and John J. Montgomery Elementary Schools. The events were part of multifaceted presentations about peace that included the creation of peace-themed student art.

Last month, Visual and Performing Arts (VAPA) Resource Teachers Stacy Clemetson (Myrtle S. Finney Elementary) and Joanna Estrada (Camarena and Hedenkamp) volunteered to represent the District and their respective sites during the “Colors of Peace” event. “Colors of Peace” is an exhibition sponsored by the Peace Run that featured more than 5,000 drawings from children of 128 countries. For the exhibition, Ms. Clemetson and Ms. Estrada helped display approximately 150 pieces of District students’ artwork. The two-week exhibition, that celebrated the United Nations’ International Day of Peace (September 21), was unveiled on September 20 and encircled the Colosseum in Rome, Italy.

During the event, Ms. Estrada and Ms. Clemetson also participated in a variety of activities, such as:

- The opening ceremony on September 20, held inside the Colosseum featuring United Nations representatives from a variety of nations around the world.
- A flash mob on September 21, held at the Colosseum. This included a Silent Peace Meditation on the Peace Carpet made by women from around the world.
- The Peace Run to the Vatican, Peace Run Half Marathon, and Fun Run that ended in Napoli with a special dinner with monks.
In addition to the activities listed above, Ms. Clemetson and Ms. Estrada also presented United Nations representatives the gift of a special piece of artwork. Finney students worked on the artwork, which was then completed by students from a school in Italy, in a collaborative peace-promoting project between the two nations. The project was sponsored by District VAPA Partner School Specialty, Inc., who provided the materials to create the binational piece.

**ADDITIONAL DATA:**

The Peace Run expressed delight that Ms. Clemetson and Ms. Estrada attended the event.

**FISCAL IMPACT/FUNDING SOURCE:**

**STAFF RECOMMENDATION:**

On behalf of the Board of Education, the President will present Ms. Clemetson and Ms. Estrada with Certificates of Recognition.
ITEM TITLE:
Report on The Learning Choice Academy Charter School for the 2018-19 School Year

BACKGROUND INFORMATION:
The District views charter schools as an opportunity for research and development of innovative educational practices. The District’s expectation is that freedom from California Education Code rules and restrictions will foster higher academic achievement for students at charter schools than at similar schools. In fact, these are the premises on which charter school law was written. With the implementation of the Local Control Funding Formula and the Local Control and Accountability Plan, authorizing agencies (and charter boards) are provided with a means to annually monitor the outcomes of the charter school based on the school’s own plan.

ADDITIONAL DATA:
The Executive Director of Technology and Instruction Services and Support conducts walkthroughs at The Learning Choice Academy Charter (TLC) throughout the school year. In addition, District staff provide ongoing monitoring to ensure charter stipulations and provisions are met in accordance with Local Control and Accountability Plan goals. TLC is a nonprofit, 501(c)3 entity that operates independently of the District.

Tonight’s report will focus on the progress of TLC’s student achievement goals and financials.

Report on Results of the 2018-19 California Assessment of Student Performance and Progress in English-Language Arts and Math and the English Language Proficiency Assessments for California

Action ______ X Information ______

BACKGROUND INFORMATION:

The California Assessment of Student Performance and Progress (CAASPP) is California’s statewide student assessment system. The Smarter Balanced Assessment Consortium (SBAC) and the English Language Proficiency Assessments for California (ELPAC) are components of the CAASPP assessments:

- **SBAC:** The SBAs are comprehensive end-of-year assessments in English-Language Arts (ELA)/Literacy and Mathematics. This assessment utilizes computer-adaptive tests and performance tasks that allow students to show what they know and are able to do. The SBAs are aligned to the Common Core State Standards and are designed to measure progress toward college and career readiness for students in Grades 3-8 and 11.

- **ELPAC:** The ELPAC is the mandated state test for determining English language proficiency (ELP). It must be given to students whose primary language is one other than English. California and federal law require that local education agencies administer a state test of ELP to eligible students in Transitional Kindergarten through Grade 12. The ELPAC is aligned with the 2012 California EL Development Standards and is comprised of two separate ELP assessments: the initial ELPAC and the summative ELPAC.

ADDITIONAL DATA:

The District’s major target populations are all ethnicities, including African-American or Black, Asian, Filipino, Hispanic or Latino, Pacific Islander, and White. Other target groups include English Learners, Foster Youth, Socioeconomically Disadvantaged, and Students with Disabilities.
Tonight, Instructional Services and Support staff will provide a report on the results of the District's 2018-19 CAASPP in ELA and Math and the ELPAC.

Additional information is available for review in the Office of the Executive Director of Curriculum and Instruction Services and Support.

Report on Results of California School Dashboard Local Indicators

______________ Action ____________ X _______ Information

BACKGROUND INFORMATION:

The California School Dashboard contains reports that display the performance of local educational agencies (LEAs), schools, and student groups on a set of state and local measures to assist in identifying strengths, weaknesses, and areas in need of improvement. For Local Control Federal Funding priorities where data is not collected at the state level, LEAs will measure and report to the California Department of Education, no later than November 1, 2019, on their progress through the Dashboard based on locally-collected data. Local Indicators on the California Dashboard are measured in Priority 1, Priority 2, Priority 3, and Priority 6. Results of Local Indicators in those four priority areas are as follows:

- **Priority 1**: Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities. Criteria: **Met**

  LEA annually measures its progress in meeting the Williams settlement requirements at 100 percent of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; and provides information annually on progress meeting this standard to its local governing board, stakeholders, and the public through the evaluation rubrics.

- **Priority 2**: Self-Reflection Tool for Implementation of State Academic Standards. Criteria: **Met**

  LEA annually measures its progress implementing state academic standards and reports the results to its local governing board, stakeholders, and to the public through the evaluation rubrics.
• **Priority 3: Self-Reflection Tool for Parent Engagement. Criteria: Met**

LEA annually measures its progress in: (1) seeking input from parents in decision making; and (2) promoting parental participation in programs, and reports the results to its local governing board, stakeholders, and the public through the evaluation rubrics.

• **Priority 6: School Climate. Criteria: Met**

LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness to students in at least one grade within the grade span that the LEA serves, and reports the results to its local governing board, stakeholders, and the public through the evaluation rubrics.

The District has met the California School Dashboard criteria in all four of the Local Indicator priority areas.

A. Chula Vista Classified Employees Organization

Chula Vista Classified Employees Organization (CVCEO) President Peter Zeitler thanked Dr. Escobedo for the staff housing survey. He also thanked the Facilities Department for efforts related to the modernization of Sunnyside Elementary, saying it rolled out really well. Mr. Zeitler stated the District is facing a shortage of custodians and has less than 40 substitutes, in part because neighbor districts pay higher wages. He said there is also a shortage of bus drivers, and only four substitute. Mr. Zeitler said a date is set for negotiations and that the contract should be settled. He commented the District is one of five doing a great job in achievement, due to its quality teachers.

Chula Vista Educators (CVE) President Susan Skala asked the Board to support Arroyo Vista Charter School (AVCS) teachers, who have petitioned the Public Employment Relations Board to add them as members of CVE. Ms. Skala said AVCS teachers, 80 percent of which signed the petition, are District employees, earn permanent status, and have transfer rights. She addressed negotiations, saying the District offered $1,000 on the health benefits cap—tied to accepting a one half-percent, off-schedule bonus. Ms. Skala stated the District’s counterproposal does not address CVE’s request for pay for overnight field trips. She expressed disappointment and said she hopes the Board can provide an offer with which everyone can live.

5. ORAL COMMUNICATIONS

Oral Communications provides the public with an opportunity to address the Board on non-agenda items. Speakers are requested to limit their remarks to five minutes. The Board shall limit the total time for public input on each agenda item to 20 minutes. Mr. Esquivel said after changing all lighting to LED lights, the next step is for the District to consider solar energy. For this purpose, the District requested EcoMotion to prepare a feasibility study in an effort to determine if solar is a good option. Mr. Esquivel introduced EcoMotion’s President Ted Flanigan and Solar Specialist Michael Ware. Mr. Flanigan and Mr. Ware provided a presentation that included information about EcoMotion, the process utilized for the study, a comparison of purchasing power from a vendor vs. purchasing a system, potential risks, system options, and next steps. They explained that the study determined that converting to solar power—specifically purchasing a system—would be of greatest benefit to the District and would realize 25-year net savings of over $96 million assuming three percent annual utility increases. Mr. Flanigan and Mr. Ware also answered questions from the Board.

11. BOARD COMMUNICATIONS

Mrs. Bunker:
- Remarked that the solar feasibility study was exciting, and that the Board has discussed the topic. Said she thinks it would be good financially and the District would set an example in doing the right thing for conservation.

• Commented that she visited Allen and Parkview and was impressed with the rigor in the instruction, with how articulate the students are, and with the fact that they know what they are learning and their objectives for the day. Said homelessness is an epidemic in the nation and that the District homeless student population has grown from 90 to 185, adding that the organization has a 40 percent success rate. Remarked that New GateWay is planning to participate in a work fair and hopefully the District will get some custodians and other employees.

Review and Accept Quarterly Report to the San Diego County Office of Education on Williams Complaints for the Period of July Through September 2019

Action  X  Information

BACKGROUND INFORMATION:

In May 2000, a lawsuit was filed against the State of California claiming that low-performing schools throughout the state were housed in facilities that were dirty, unsafe, and inadequate with further allegations that these schools were additionally burdened with unqualified teachers and insufficient instructional materials. A settlement in Williams vs. California was reached in August 2004 and subsequently enacted into law through Senate Bills 6 and 550 and Assembly Bills 1550, 2727, and 3001 (chaptered September 29, 2004).

The intent of the Williams settlement is to ensure that all students have equal access to:

- Instructional materials.
- Qualified teachers.
- Safe, clean, and adequate facilities.

ADDITIONAL DATA:

A stipulation of the settlement is that all school districts must update Uniform Complaint Procedures to include:

- Instructional materials.
- Teacher vacancies and misassignments.
- Emergency or urgent facilities issues.

Notices are posted in each classroom in every District school informing parents/guardians that all classes in all California public schools must have sufficient instructional materials and that the facilities must be clean, safe, and in
“good repair.” The notices also provide information on how and where to file a complaint.

A quarterly summary report of complaints must be presented to the Board and to the San Diego County Office of Education. For the period of July through September 2019, no Williams complaint were filed in the District.

**FISCAL IMPACT/FUNDING SOURCE:**

None.

**STAFF RECOMMENDATION:**

Recommend review and acceptance.

X Action  Information

BACKGROUND INFORMATION:

Sanford College of Education programs, *Harmony* and *Inspire*, are social-emotional learning platforms designed to build healthy relationships and strong schoolwide learning communities among Transitional Kindergarten-Grade 6 students. These two free programs have been implemented at most District sites.

*Harmony* strategies promote connection, communication, collaboration, and problem solving. The goal is to build awareness of commonalities and to celebrate differences among diverse students. The positive and meaningful relationships between students, teachers, and parents are at the heart of the educational experience. *Harmony* is structured to be incorporated into lesson plans and is aligned with Common Core State Standards.

*Inspire* philosophy and approach link academic achievement to an effective integration of social-emotional and cognitive strategies. The result is to inspire students’ academic pursuits while ensuring they thrive personally. Every learner should be continually surrounded, supported, and sustained by an educational community that is dedicated to inspiring teaching and learning.

ADDITIONAL DATA:

In April 2018, a Memorandum of Understanding (MOU) was approved by the Board for the research study on *Harmony* and *Inspire* that was conducted at Marshall Elementary. The study, conducted by Johns Hopkins University on behalf of Sanford College, was designed to identify exemplary curricular and pedagogical practices that can be integrated at school sites throughout the District.
In January 2019, an MOU was approved by the Board for a second year at Marshall Elementary and the study was then expanded to Valle Lindo Elementary.

This year, Sanford College has requested to continue the research study for a third year at Marshall Elementary and a second year at Valle Lindo Elementary. MOUs were prepared for the two studies.

Approve Agreement with the San Diego County Office of Education for Participation and Services in the Outdoor Education Program for Karl H. Kellogg Elementary School for the Period of April 20 Through April 24, 2020

X Action Information

BACKGROUND INFORMATION:

The San Diego County Office of Education (SDCOE) operates the Outdoor Education Program, which allows Grade 6 students to stay four or five days at a designated site where they are provided with hands-on learning opportunities that incorporate the Next Generation Science Standards and Common Core State Standards. The program’s curriculum includes life science, biology, botany, earth science, geology, meteorology, astronomy, outdoor skills, recreation activities, and crafts.

The SDCOE requests districts to sign an agreement for each of their participating schools. These agreements allow for scheduling and other necessary preparations for use of outdoor education facilities. The agreements require the District to guarantee payment for a minimum number of students (in this case 47) to cover instructional fees, food, and lodging at SDCOE facilities. These agreements do not change the obligation of the individual schools to provide funding for participating students.

ADDITIONAL DATA:

At the June 19, 2019 Board meeting Kellogg Elementary was approved to participate in the 2019-20 Outdoor Education Program with the YMCA of San Diego. Site administration has requested a change to participate in the SDCOE Outdoor Education Program instead.

GOVERNING BOARD AGENDA ITEM

Prepared by: Business Services and Support

ITEM TITLE:

_____ X _____Action

_________________Information

BACKGROUND INFORMATION:

Government Code Section 66006 addresses the collection of developers’ fees and requirements for agencies collecting those fees. The Board of Education is required to review this information annually at a regularly scheduled meeting. Section 66006 requires an annual report that includes:

- Description of the types of reportable fees.
- Amounts of reportable fees.
- Beginning and ending balances.
- Amount of reportable fees collected.
- Identification of improvements.
- Identification of incomplete projects.
- Description of inter-fund transfers.
- Refunds of reportable fees.

In addition, Government Code Section 66001 required a five-year report that includes:

- Identification of the purpose for which reportable fees are to be used.
- Demonstration of the reasonable relationship between reportable fees and the purpose for which they are charged.
- Identification of all sources and amounts of funding anticipated to complete financing of school facilities the District has identified in the District’s reports and the designation of the approximate date on which this funding is expected to be deposited in the appropriate account.
**ADDITIONAL DATA:**

The District’s report for the year ending June 30, 2019, is attached. Detailed financial information is available for review in the Office of the Deputy Superintendent.

**FISCAL IMPACT/FUNDING SOURCE:**

None.

**STAFF RECOMMENDATION:**

Recommend approval.
Government Code Section 66006 provides that the District shall make available to the public certain information relative to statutory school fees (“Statutory School Fees”) collected pursuant to Education Code Section 17620, et seq., and Government Code Section 65995, et seq., and mitigation payments specified or required by conditions of legislative land-use approvals, mitigation measures of environmental impact reports and negative declarations, or mitigation agreements entered into with the District (“Mitigation Payments”), collectively “Reportable Fees.” The described information and findings relate to Reportable Fees received, expended, or to be expended in connection with school facilities (“School Facilities”) to accommodate additional students from new development if funded or partially funded with Reportable Fees. The Reportable Fees do not include letters of credit, bonds, or other instruments to secure payment of Reportable Fees at a future date. The Reportable Fees have not been levied, collected, or imposed for general revenue purposes.

The District proposes to review and adopt the following information and findings in accordance with Government Code Section 66006.

ANNUAL REPORT

In accordance with Government Code Section 66006(b)(1) and (2), the District provides the following information for fiscal year 2018-19.

A. DESCRIPTION OF THE TYPES OF REPORTABLE FEES IN THE ACCOUNTS OF THE DISTRICT

The Reportable Fees consist of Statutory School Fees and Mitigation Payments.

B. AMOUNT OF REPORTABLE FEES

The Statutory School Fee in effect for the fiscal year ending June 30, 2019, applicable to new residential development was $1.67 per square foot of assessable space for all residential dwelling units constructed within the District and for which alternative mitigation did not exist. This residential fee amount (Level I) has been in effect since June 11, 2018. The residential Statutory School Fee amount was adopted by the Board of Education (“Board”) of the District on April 11, 2018, by Resolution No. 2017-18-87.

The current Statutory School Fee in effect for the fiscal year ending June 30, 2019, applicable to new commercial/industrial development was $.27 per square foot of covered and enclosed, nonresidential space
constructed within the District. This nonresidential fee amount (Level I) has been in effect since June 11, 2018. The nonresidential Statutory School Fee amount was adopted by the Board on April 11, 2018, as set forth in Resolution No. 2017-18.87.

The Statutory School Fee amounts only partially mitigate the impacts to the District caused by new residential development because the Statutory School Fees do not adequately fund the school facility needs resulting from additional development within the District. Additional amounts collected in the form of Mitigation Payments are essential to help fund interim and permanent School Facilities to accommodate students from additional development within the District.

E. IDENTIFICATION OF EACH IMPROVEMENT ON WHICH REPORTABLE FEES WERE EXPENDED AND THE AMOUNT OF THE EXPENDITURES ON EACH IMPROVEMENT, INCLUDING THE TOTAL PERCENTAGE OF THE COST OF EACH PROJECT OF THE DISTRICT THAT WAS FUNDED WITH REPORTABLE FEES

The statutory fees collected from new development projects are largely used to pay for the cost of expanding student capacity at many of the District's existing schools through the lease or purchase of relocatable classrooms. These additional facilities provide increased capacity that serves the student population of the District. Some additional mitigation fee payments collected from development within CFD No. 1 are currently designated to pay for a portion of debt service due on outstanding bonds, which were issued to pay for the construction of new school facilities. Table 3 identifies the amount of Reportable Fees expended for School Facilities in fiscal year 2018-19 as well as the percentage of each improvement funded by Reportable Fees.

F. IDENTIFICATION OF INCOMPLETE PROJECTS

The District will use some of the Reportable Fees in Fund 25-18 to pay for a portion of the relocatable classrooms at school sites as part of its expansion efforts. A portion of the Reportable Fees will be used to pay for a share of the administrative salaries of District planning staff.

G. DESCRIPTION OF INTERFUND TRANSFERS OR LOANS MADE FROM THE ACCOUNT

A portion of the Reportable Fees collected from CFD No. 1 accumulated from previous years may be used to pay a portion of debt service due on outstanding bonds and/or COPs issued, in part, to provide for new school facilities to serve the developments located within CFD No. 1.
H. THE AMOUNT OF REFUNDS MADE OR REVENUES ALLOCATED FOR OTHER PURPOSES IF THE ADMINISTRATIVE COSTS OF REFUNDING UNEXPENDED REVENUES EXCEED THE AMOUNT TO BE REFUNDED

The District refunded $6,237 of Reportable Fees in fiscal year 2018-19.

FIVE-YEAR REPORT

In accordance with Government Code Section 66001, the District provides the following information with respect to that portion of the account or sub-account(s) remaining unexpended, whether committed or uncommitted.

A. IDENTIFICATION OF THE PURPOSE TO WHICH THE REPORTABLE FEES ARE TO BE PUT:

The purpose of the Reportable Fees imposed and collected on new residential, commercial and industrial development within the District is to fund additional School Facilities required to serve the students of the District generated by such new development. Specifically, the Reportable Fees will be used for the construction and/or acquisition of additional School Facilities, remodeling existing School Facilities to add additional classrooms and technology, as well as acquiring and installing additional relocatable classrooms.

B. DEMONSTRATION OF A REASONABLE RELATIONSHIP BETWEEN THE REPORTABLE FEES AND THE PURPOSES FOR WHICH THEY ARE CHARGED:

There is a roughly proportional, reasonable relationship between the new development upon which the Reportable Fees are charged and the need for additional School Facilities by reason of the fact that additional students will be generated by additional development within the District and the District does not have student capacity in the existing School Facilities to accommodate these new students. Furthermore, the Reportable Fees charged on new development will be used to fund School Facilities, which will serve the students generated from new development, and the Reportable Fees do not exceed the costs of providing such School Facilities for new students.

C. IDENTIFICATION OF ALL SOURCES AND AMOUNTS OF FUNDING ANTICIPATED TO COMPLETE FINANCING OF THE SCHOOL FACILITIES THE DISTRICT HAS IDENTIFIED IN THE DISTRICT’S REPORTS:

Table 4 identifies all funding received and allocated to capital facilities projects during the past five years. These revenues have been summarized to reflect funds received which may be classified as reportable fees as they
are described in Government Code Section 66001 and 66006. These amounts include statutory fees (Level I and Level II fees) as well as monies received from redevelopment areas in accordance with the redevelopment agreement with the City of Chula Vista.

Revenues shown under “Other Funding Sources” include, but may not be limited to, general fund expenditures, bond proceeds from the issuance of general obligation bonds, certificates of participation (COPs) proceeds, and interest from the qualified zone academy bonds (QZABs) guaranteed investment contract.

D. **DESIGNATION OF THE APPROXIMATE DATE ON WHICH THE FUNDING REFERRED TO IN PARAGRAPH “C” ABOVE IS EXPECTED TO BE DEPOSITED IN THE APPROPRIATE ACCOUNT:**

Table 6 below lists the approximate dates on which the funds are expected to be available for the School Facility projects identified by the District as of June 30, 2019 to be funded from reportable fees as well as from “other funding sources”. This does not represent a complete list of capital facilities projects to be funded during the next five years. Rather it demonstrates that all unexpended reportable fees are expected to be expended within the next 18 months. The remaining reportable fees will
be used for construction, acquisition, and expansion of school facilities generated by new development upon which Reportable fees are charged.

ITEM TITLE:
Authorize District to Enter Into Agreement with Ruhnau Clarke Architects for Architectural and Engineering Services for Proposed Otay Ranch Village 2, Site 2, School Site

X Action

BACKGROUND INFORMATION:
On May 25, 2016, The Chula Vista Elementary School District (District) conducted a Request for Qualifications (RFQ) for As-Needed Architectural and Engineering Services for renovations/modernizations, classroom additions, site work, preparation of modular buildings, and new construction, including but not limited to new elementary school construction. Three firms, PJHM Architects, Ruhnau Clarke Architects (Ruhnau), and Westberg + White Architects were recommended to the Board as a pool from which to choose to provide those services.

The District now proposes to enter into an agreement with Ruhnau for architectural and engineering services for a proposed elementary school to be located at Otay Ranch Village 2, Site 2 (ORV2 Site 2). The services are divided into phases, and Ruhnau will be required to obtain authorization from the District to implement each phase. Should the District decide not to proceed with the proposed school site, the District would not be obligated to pay any remaining balance due to Ruhnau representing services not rendered.

ADDITIONAL DATA:
Copies of the ROQs and SOQs received are available for review in the Office of the Deputy Superintendent.
FISCAL IMPACT/FUNDING SOURCE:

Preconstruction and construction management services for the proposed ORV2 Site 2, will be funded through Capital funds, including, but not limited to, Community Facilities District funds.

STAFF RECOMMENDATION:

Recommend authorization.

On May 29, 2019, the Board approved the use of Balfour Beatty Construction (BBC) and C.W. Driver Construction as a pool from which to choose for future projects.

The District now proposes to enter into a contract with Balfour Beatty Construction for preconstruction and construction management services for new elementary schools located at Otay Ranch Village 2, Site 2 (ORV2 Site 2), and Otay Ranch Village 3, Village of Escaya (ORV3). The services are divided into phases, and BBC will be required to obtain authorization from the District to implement each phase. Should the District decide not to proceed with the proposed school sites, the District would not be obligated to pay any remaining balance due to BBC representing services not rendered.

CHULA VISTA ELEMENTARY SCHOOL DISTRICT

GOVERNING BOARD AGENDA ITEM

Prepared by: Instructional Services and Support

ITEM TITLE:

(1) Conduct Public Hearing on a General Waiver Request to Provide a Reduced-Day Extended School Year Program; and

(2) Authorize Application for the General Waiver Request to Provide a Reduced-Day Extended School Year Program from June 8 Through June 26, 2020

X Action Information

BACKGROUND INFORMATION:

The District wishes to apply for a General Waiver Request to the California Department of Education to modify the mandated 20-day extended school year (ESY) for students enrolled in special education. The waiver will allow the District to provide a 15-day program from June 8 through June 26, 2020. California Code of Regulations, Title 5, Section 3043(d) requires students in Kindergarten through Grade 6 to be provided a minimum of 80 instructional hours of ESY, and students in preschool to be provided a minimum of 60 instructional hours of ESY. Traditional ESY programs are 20 days long. Since the District operates a year-round school year calendar, the number of weeks available to offer an ESY program is limited. By offering a reduced-day program, the District has higher student participation. The 15-day program provides the required number of instructional hours over fewer instructional days.

ADDITIONAL DATA:

Additional information is available for review in the Office of the Executive Director of Special Education and Instruction Services and Support.

FISCAL IMPACT/FUNDING SOURCE:

Funding will be provided from Special Education resources. Reduced expenses are anticipated due to decreased operational and transportation costs.

RECOMMENDATION:

Recommend conduct public hearing and authorization.
ITEM TITLE:

District policy and guidelines do not apply to personal social media platforms that may be created by students, staff members, or other individuals which may sometimes include discussion of District-related issues but are not sponsored by the District.

ADDITIONAL DATA:
Copies of proposed Board Policy and Administrative Regulation 1114 are attached. Additional information is available for review in the Office of the Assistant Superintendent of Innovation and Instruction Services and Support.

INTEGRATED PEST MANAGEMENT

AB 2260 (Chapter 718, Statutes of 2000) added Education Code Sections 17608-17613 to require the use of effective least toxic pest management practices for the control and management of pests at school sites. AB 2260 also added Food and Agricultural Code 13180-13188 to require the Department of Pesticide Regulation to establish for the use of school districts in the state an integrated pest management program, a model program guidebook, and an Internet website containing a comprehensive directory of resources describing and promoting the use of integrated pest management practices.

The Superintendent/ or designee shall develop and implement an integrated pest management program that incorporates effective least toxic pest management practices.

Integrated pest management is a strategy that focuses on long-term prevention or suppression of pest problems through a combination of techniques such as monitoring for pest presence and establishing treatment threshold levels, using nonchemical practices to make the habitat less conducive to pest development, improving sanitation, and employing mechanical and physical controls. (Food and Agricultural Code 13181) (Ed Code 17609)

School site means any facility used as a child day care facility or for kindergarten, elementary, or secondary school purposes, and includes the buildings or structures, playgrounds, athletic fields, vehicles, or any other area of property visited or used by students. (Education Code 17609)

Procedures

In the control and/or management of pests at District facilities, The Superintendent/ or designee shall:

1. **Develop, implement, and coordinate an integrated pest management strategy that incorporates effective, least toxic pest management practices.**

2. Carefully monitor and identify the pest and the site of infestation. Strategies for managing the pest shall be influenced by the pest species and whether that species poses a threat to people, property, or the environment.
Business and Noninstructional Operations

INTEGRATED PEST MANAGEMENT (continued)

23. Consider a full range of possible alternatives. Such alternatives include not taking any action or controlling the pest by physical, mechanical, chemical, cultural, or biological means.

34. Select nonchemical pest management methods over chemical methods, whenever they are effective to provide the desired control. Cost or staffing considerations alone will not be adequate justification for use of chemical control agents.

45. Use the least toxic material when it is determined that a chemical method of pest management must be used. The least toxic material shall be chosen and applied in accordance with law.

56. Limit pesticide purchases to amounts needed for the year. Pesticides shall be stored at a secure location that is not accessible to students and unauthorized staff, and they shall be stored and disposed of in accordance with state regulations and label directions registered with the Environmental Protection Agency.

67. Ensure that persons applying pesticides follow label precautions and are trained in the principles and practices of integrated pest management.

Training

The integrated pest management coordinator and any employee or contractor who may be designated to apply a pesticide at a school site shall annually complete a Department of Pesticide Regulation-approved training course on integrated pest management and the safe use of pesticides in relation to the unique nature of school sites and children’s health. (Education Code 17614; Food and Agricultural Code 13186.5)

Any District employee who handles pesticides shall also receive pesticide-specific safety training prior to applying pesticides and annually thereafter in accordance with 3 CCR 6724.
Business and Noninstructional Operations

INTEGRATED PEST MANAGEMENT (continued)

The integrated pest management program shall include the name of the District and/or school integrated pest management coordinator, the pesticides expected to be applied at the school site by District employees and/or pest control applicators, and a date that the plan shall be reviewed and, if necessary, updated. (Education Code 17611.5)

Notification

The Superintendent/ or designee shall annually notify staff and parents/guardians of students enrolled at a school site, in writing, regarding pesticide products expected to be applied at the school facility in the upcoming year. The notification shall include at least the following: (Education Code 17612)

1. The Internet address used to access information on pesticides and pesticide use reduction developed by the Department of Pesticide Regulation pursuant to Food and Agricultural Code 13184.

2. The name of each pesticide product expected to be applied in the upcoming year and the active ingredient(s) in it.

3. An opportunity for interested persons to register to receive notification of individual pesticide application at the school site. The Superintendent or designee shall notify such registered persons of individual pesticide applications at least 72 hours prior to the application.

4. Other information deemed necessary by the Superintendent/ or designee.

If a pesticide product not included in the annual notification is subsequently intended for use at the school site, The Superintendent/ or designee shall provide written notification of its intended use to staff and parents/guardians of students enrolled at the school, at least 72 hours prior to the application. (Education Code 17612)

(cf. 1312.4 - Williams Uniform Complaint Procedures)
(cf. 3517 - Facilities Inspection)
(cf. 4112.9/4212.9/4312.9 - Employee Notifications)
(cf. 5145.6 - Parental Notifications)
Business and Noninstructional Operations

INTEGRATED PEST MANAGEMENT (continued)

Posting of Warning Signs

The Superintendent/or designee shall post a warning sign at each area of the school site where pesticides will be applied at least 24 hours prior to the application and until 72 hours after the application. The warning sign shall display the following: (Education Code 17612)

1. The term "Warning/Pesticide Treated Area."

2. The product name, manufacturer’s name, and the Environmental Protection Agency’s product registration number.

3. Intended areas and dates of application.

4. Reason for the pesticide application.

Notification During Emergency Conditions

Whenever The Superintendent/or designee deems that the immediate use of a pesticide is necessary to protect the health and safety of students, staff, or other persons, or the school site, he/she shall make every effort to provide the required notifications prior to the application of a pesticide. In such a case, the warning sign shall be posted immediately upon application and shall remain posted until 72 hours after the application. (Education Code 17609, 17612)

(cf. 3514 - Safety)

FREE AND REDUCED PRICE MEALS

The Governing Board recognizes that adequate nutrition is essential to child development and learning and that some families may be unable to provide breakfast and lunch for their children. In accordance with law, the District shall provide free and reduced price meals for students whose families meet Federal eligibility criteria.

Free or reduced price meals shall be provided for needy students when family income is insufficient to provide the basic necessities, including food of the proper quality and amount as provided under the School Meals Initiative (SMI) guidelines. Eligibility shall be based on federal regulations as provided by the State Department of Education.

Parents/guardians shall be informed of the District policy concerning free or reduced price meals. A letter and application form shall be distributed to all parents/guardians during the first few weeks of school. The letter shall contain information on eligibility standards, application procedures, and appeal procedures. This information and an application form shall be provided whenever a new student is enrolled.

No individual indicators of participation in any free or reduced price meal program are maintained in the permanent record of any pupil if not otherwise allowed by law. No public release of information regarding individual pupil participation in any free or reduced price meal program is permitted.

Applications for free or reduced price meal programs shall be available to students at all times during the regular school day. (Education Code Section 49557)

Such applications shall contain the following statements:

1. Applications for free and reduced price meals may be submitted at any time during a school day.

2. Children participating in the National School Lunch and/or School Breakfast Program will not be overtly identified by the use of special tokens, special tickets, special serving lines, separate entrances, separate dining areas, or by any other means.
Business and Noninstructional Operations

FREE AND REDUCED PRICE MEALS (Continued)

All applications and records related to eligibility for the free or reduced price meal program shall be confidential. The Board authorizes the Superintendent/designee to use individual records pertaining to student eligibility for any free and reduced price meal program for the purpose of disaggregation of academic achievement data when used in connection with local/state assessments, Title I, or the National Assessment of Educational Progress (NAEP). Only information pertaining to a student’s eligibility for this program may be shared. Information regarding a student’s participation in the program (e.g., the record of meals served to that student) is confidential.

The Board authorizes designated employees to use individual records pertaining to student eligibility for any free and reduced price meal program for the purpose of:

1. Disaggregation of academic achievement data

2. Identification of students eligible for services under the federal Elementary and Secondary Education Act pursuant to 20 USC 6301-6576.

(cf. 6171 – Title I Programs)

The Board further authorizes the release of information on the school lunch program application to the local agency that determines Medi-Cal program eligibility, provided that the student is approved for free meals and the parent/guardian consents to the sharing of information as provided by Education Code 4557.2.

A public news release containing information and eligibility standards for free or reduced price meals shall be made available to local news media early in the school year. Copies of this public release shall be made available upon request to any interested party. Subsequent changes in the District eligibility standards during the school year, which are approved by the State agency, shall also be announced publicly.
FREE AND REDUCED PRICE MEALS (Continued)

The Governing Board shall formulate a plan which ensures that children eligible for free or reduced price meals and milk shall not be treated differently from other children. The plan shall be submitted to the State Department of Education for its approval.

The plan shall ensure that:

1. The names of the children shall not be published, posted, or announced in any manner, or used for any other purpose other than the National School Lunch and/or School Breakfast Program.

2. There shall be no overt identification of any of the children by the use of special tokens or tickets or by any other means.

3. The children shall not be required to work for their meals or milk.

4. The children shall not be required to use a separate dining area, go through a separate entrance, or consume their meals or milk at a different time.

5. When more than one lunch, breakfast, or type of milk is offered, the children shall have the same choice of meals or milk that is available to those children who pay the full price.
