Purchasing Procedures

Insofar as possible, goods and services purchased shall meet the needs of the person or department ordering them at the lowest price consistent with standard purchasing practices. Maintenance costs, replacement costs, and trade-in values shall be considered when determining the most economical purchase price.

(cf. 3314.2 – Revolving Funds)
(cf. 3440 - Inventories)

All purchases shall be made by formal contract or purchase order or shall be accompanied by a receipt. In order to eliminate the processing of numerous small purchase orders, the Superintendent/designee may create a "blanket" or "open" purchase order system for the purchase of minor items as needed from a vendor. The Superintendent/designee shall ensure that the "open" purchase order system details a maximum purchase amount, the types of items that can be purchased under this order, the individuals authorized to approve purchases, and the expiration date of the "open" order.
